

Lesson 2: Editing Your Movie!

**If you opened
this on an
Apple device,
tap the
screen and
then press
play to watch
my Silly Film!**

**If you just
finished
Lesson 1,
start on
Slide 6**

Hold iPad Long Way (Landscape)

Open Home Screen, 2 models of iPad

**Swipe
up from
bottom**

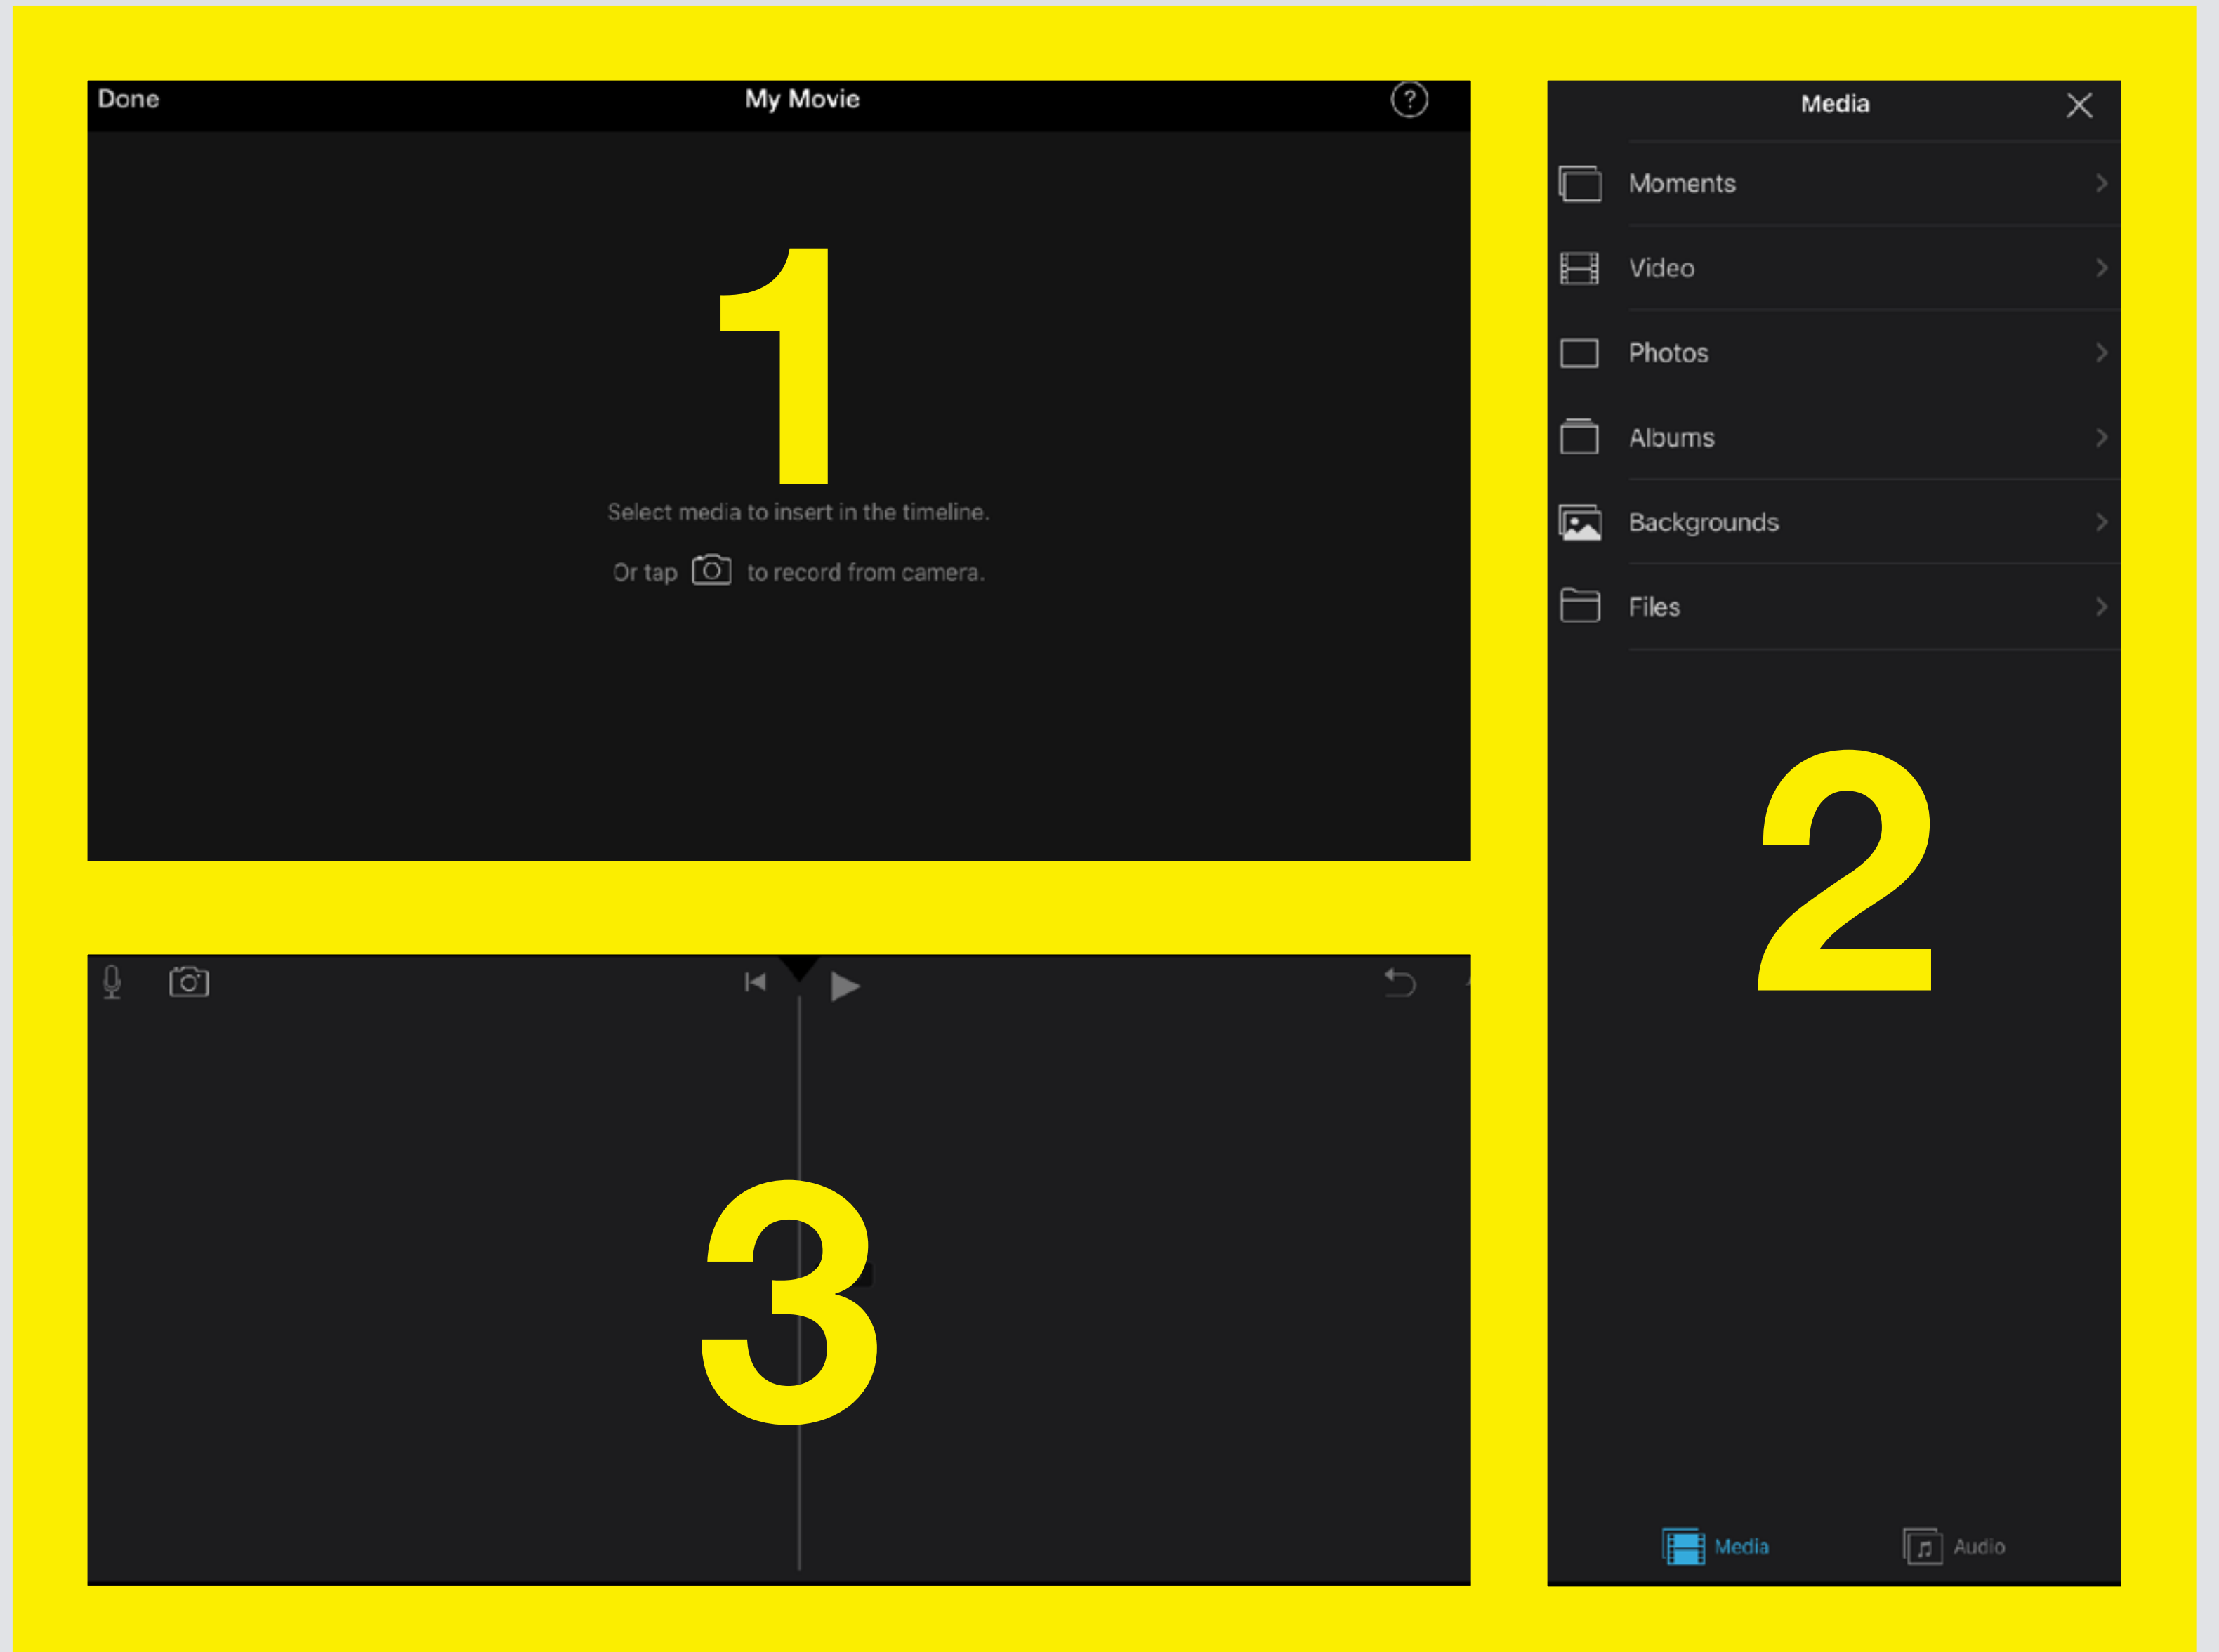

**OR Press
Home
Button**

Open iMovie

3 Sections

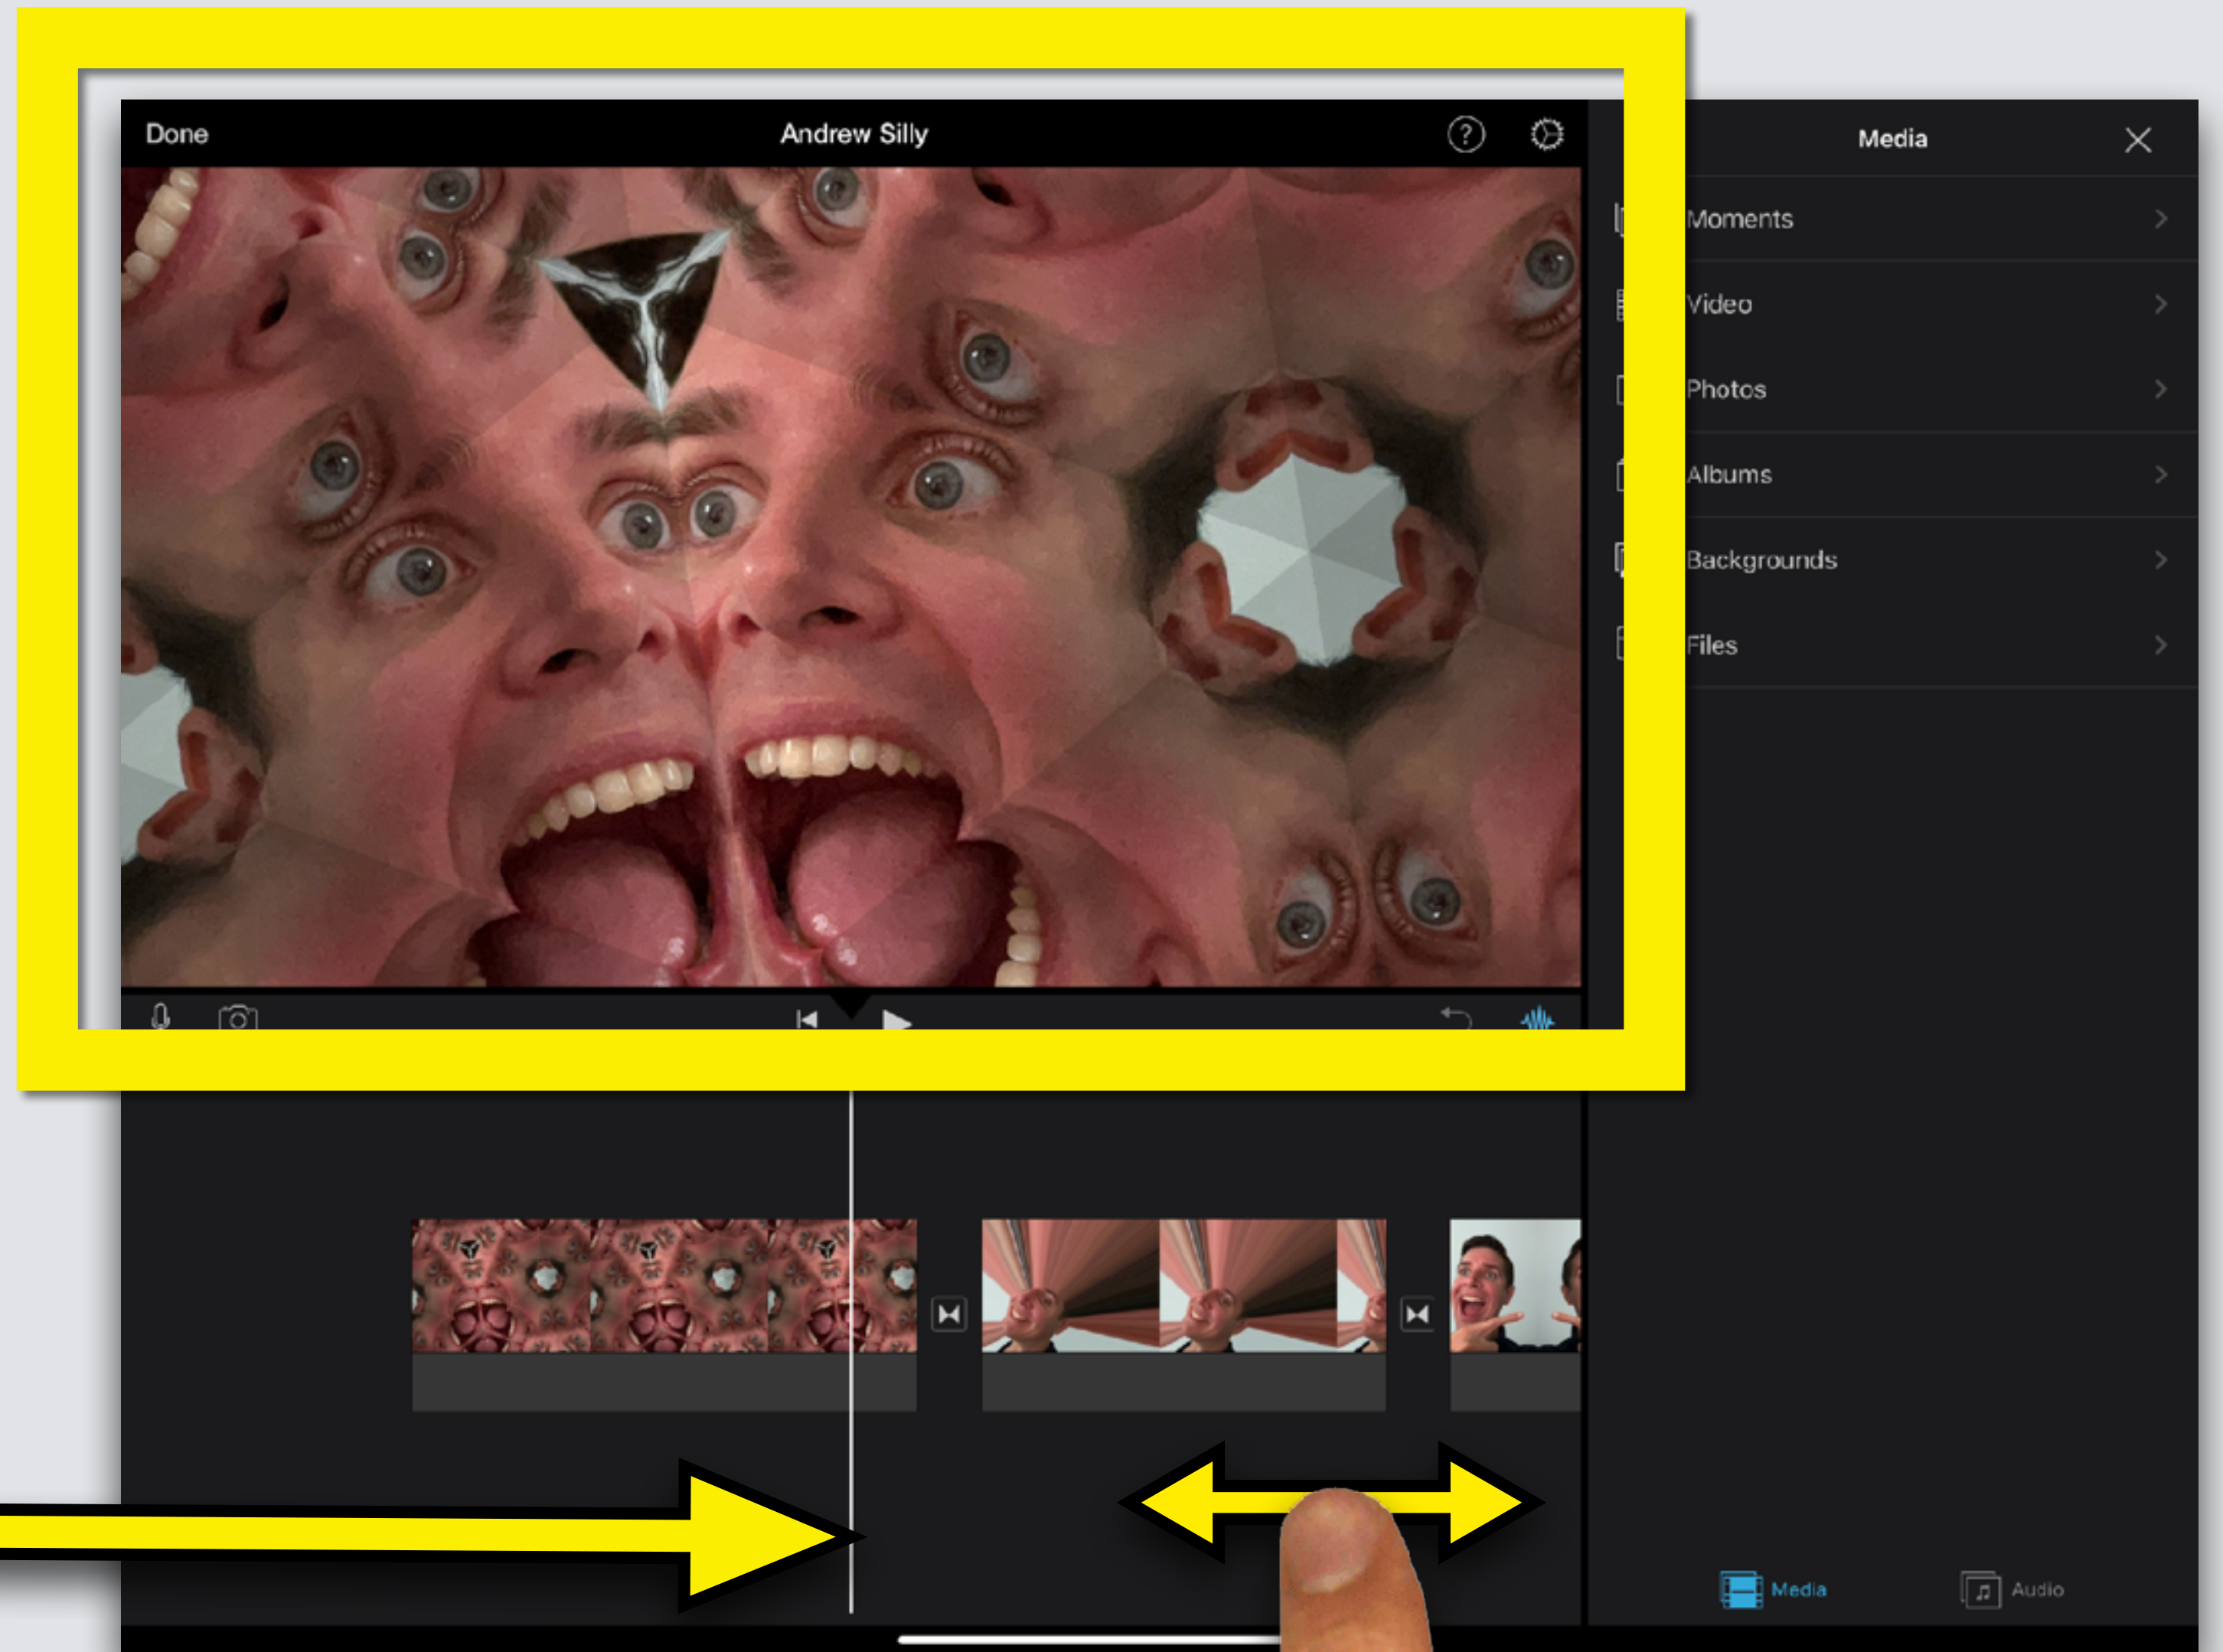

1. Playback
2. Media
3. Worktable

Section 1 - Playback Screen, to watch your movie

Playback Screen starts from the Playback Bar. The bar stays still, slide your finger right or left on the Worktable to move your clips where you want it to start playing.

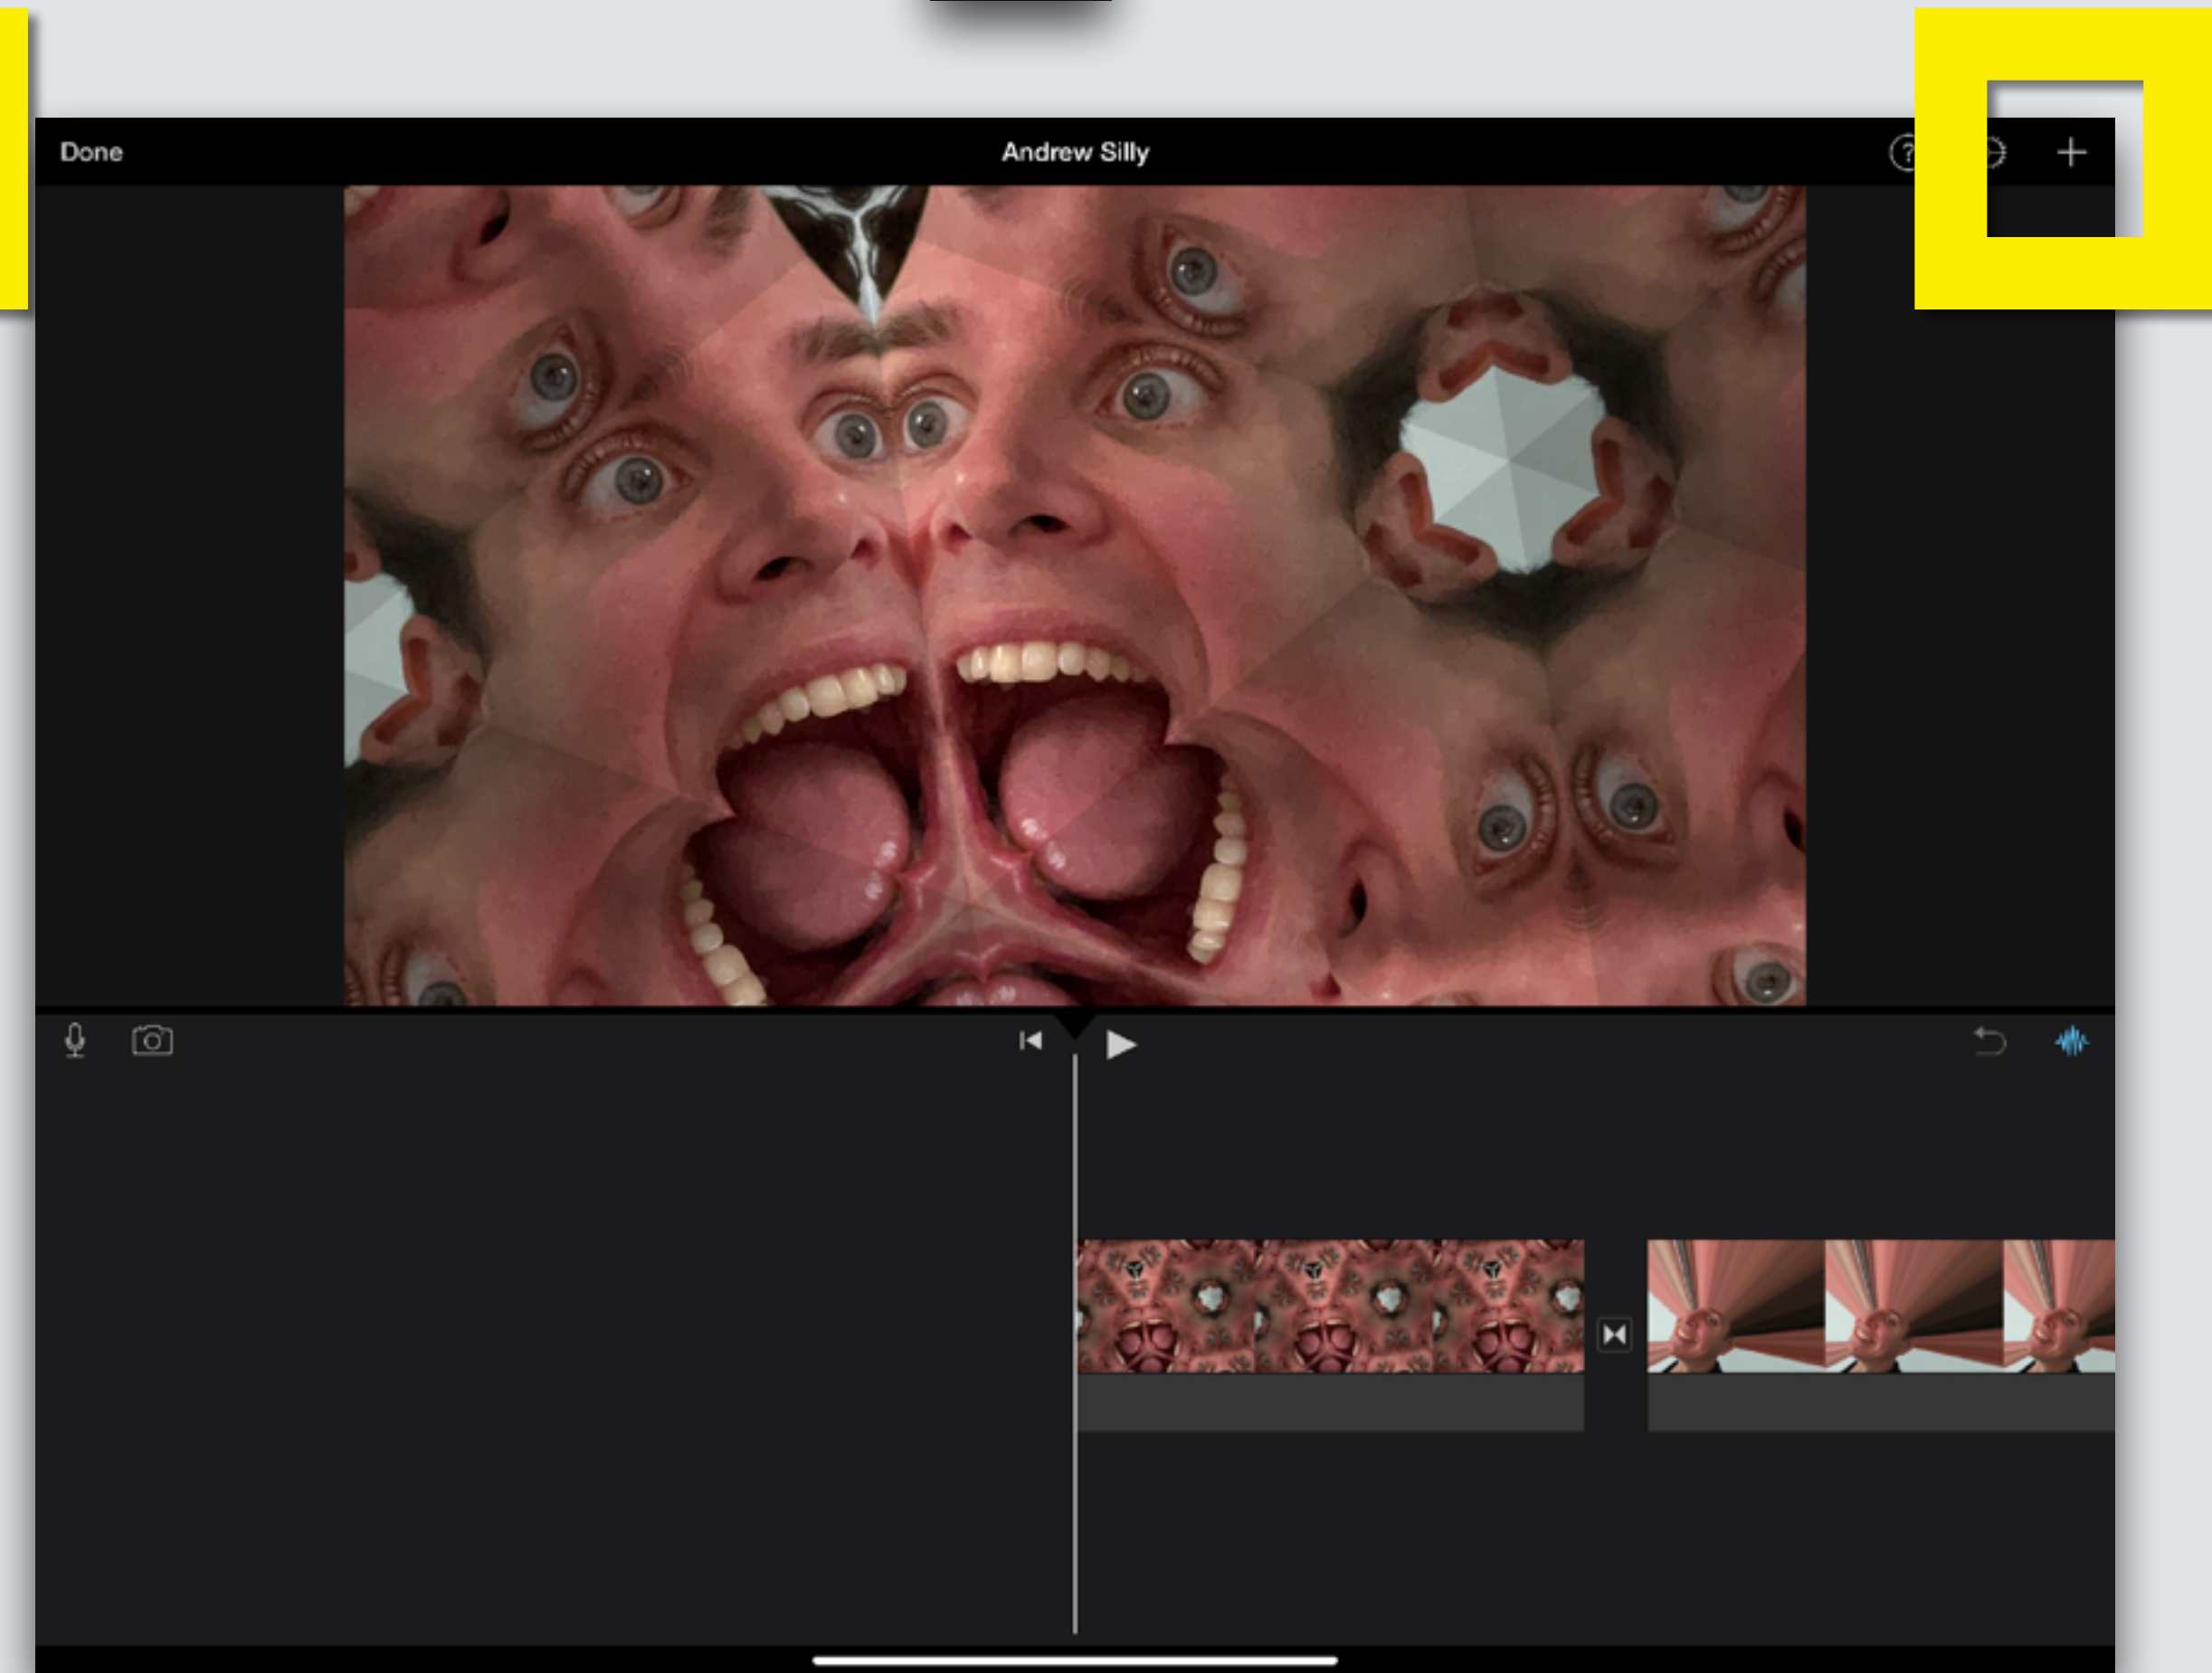

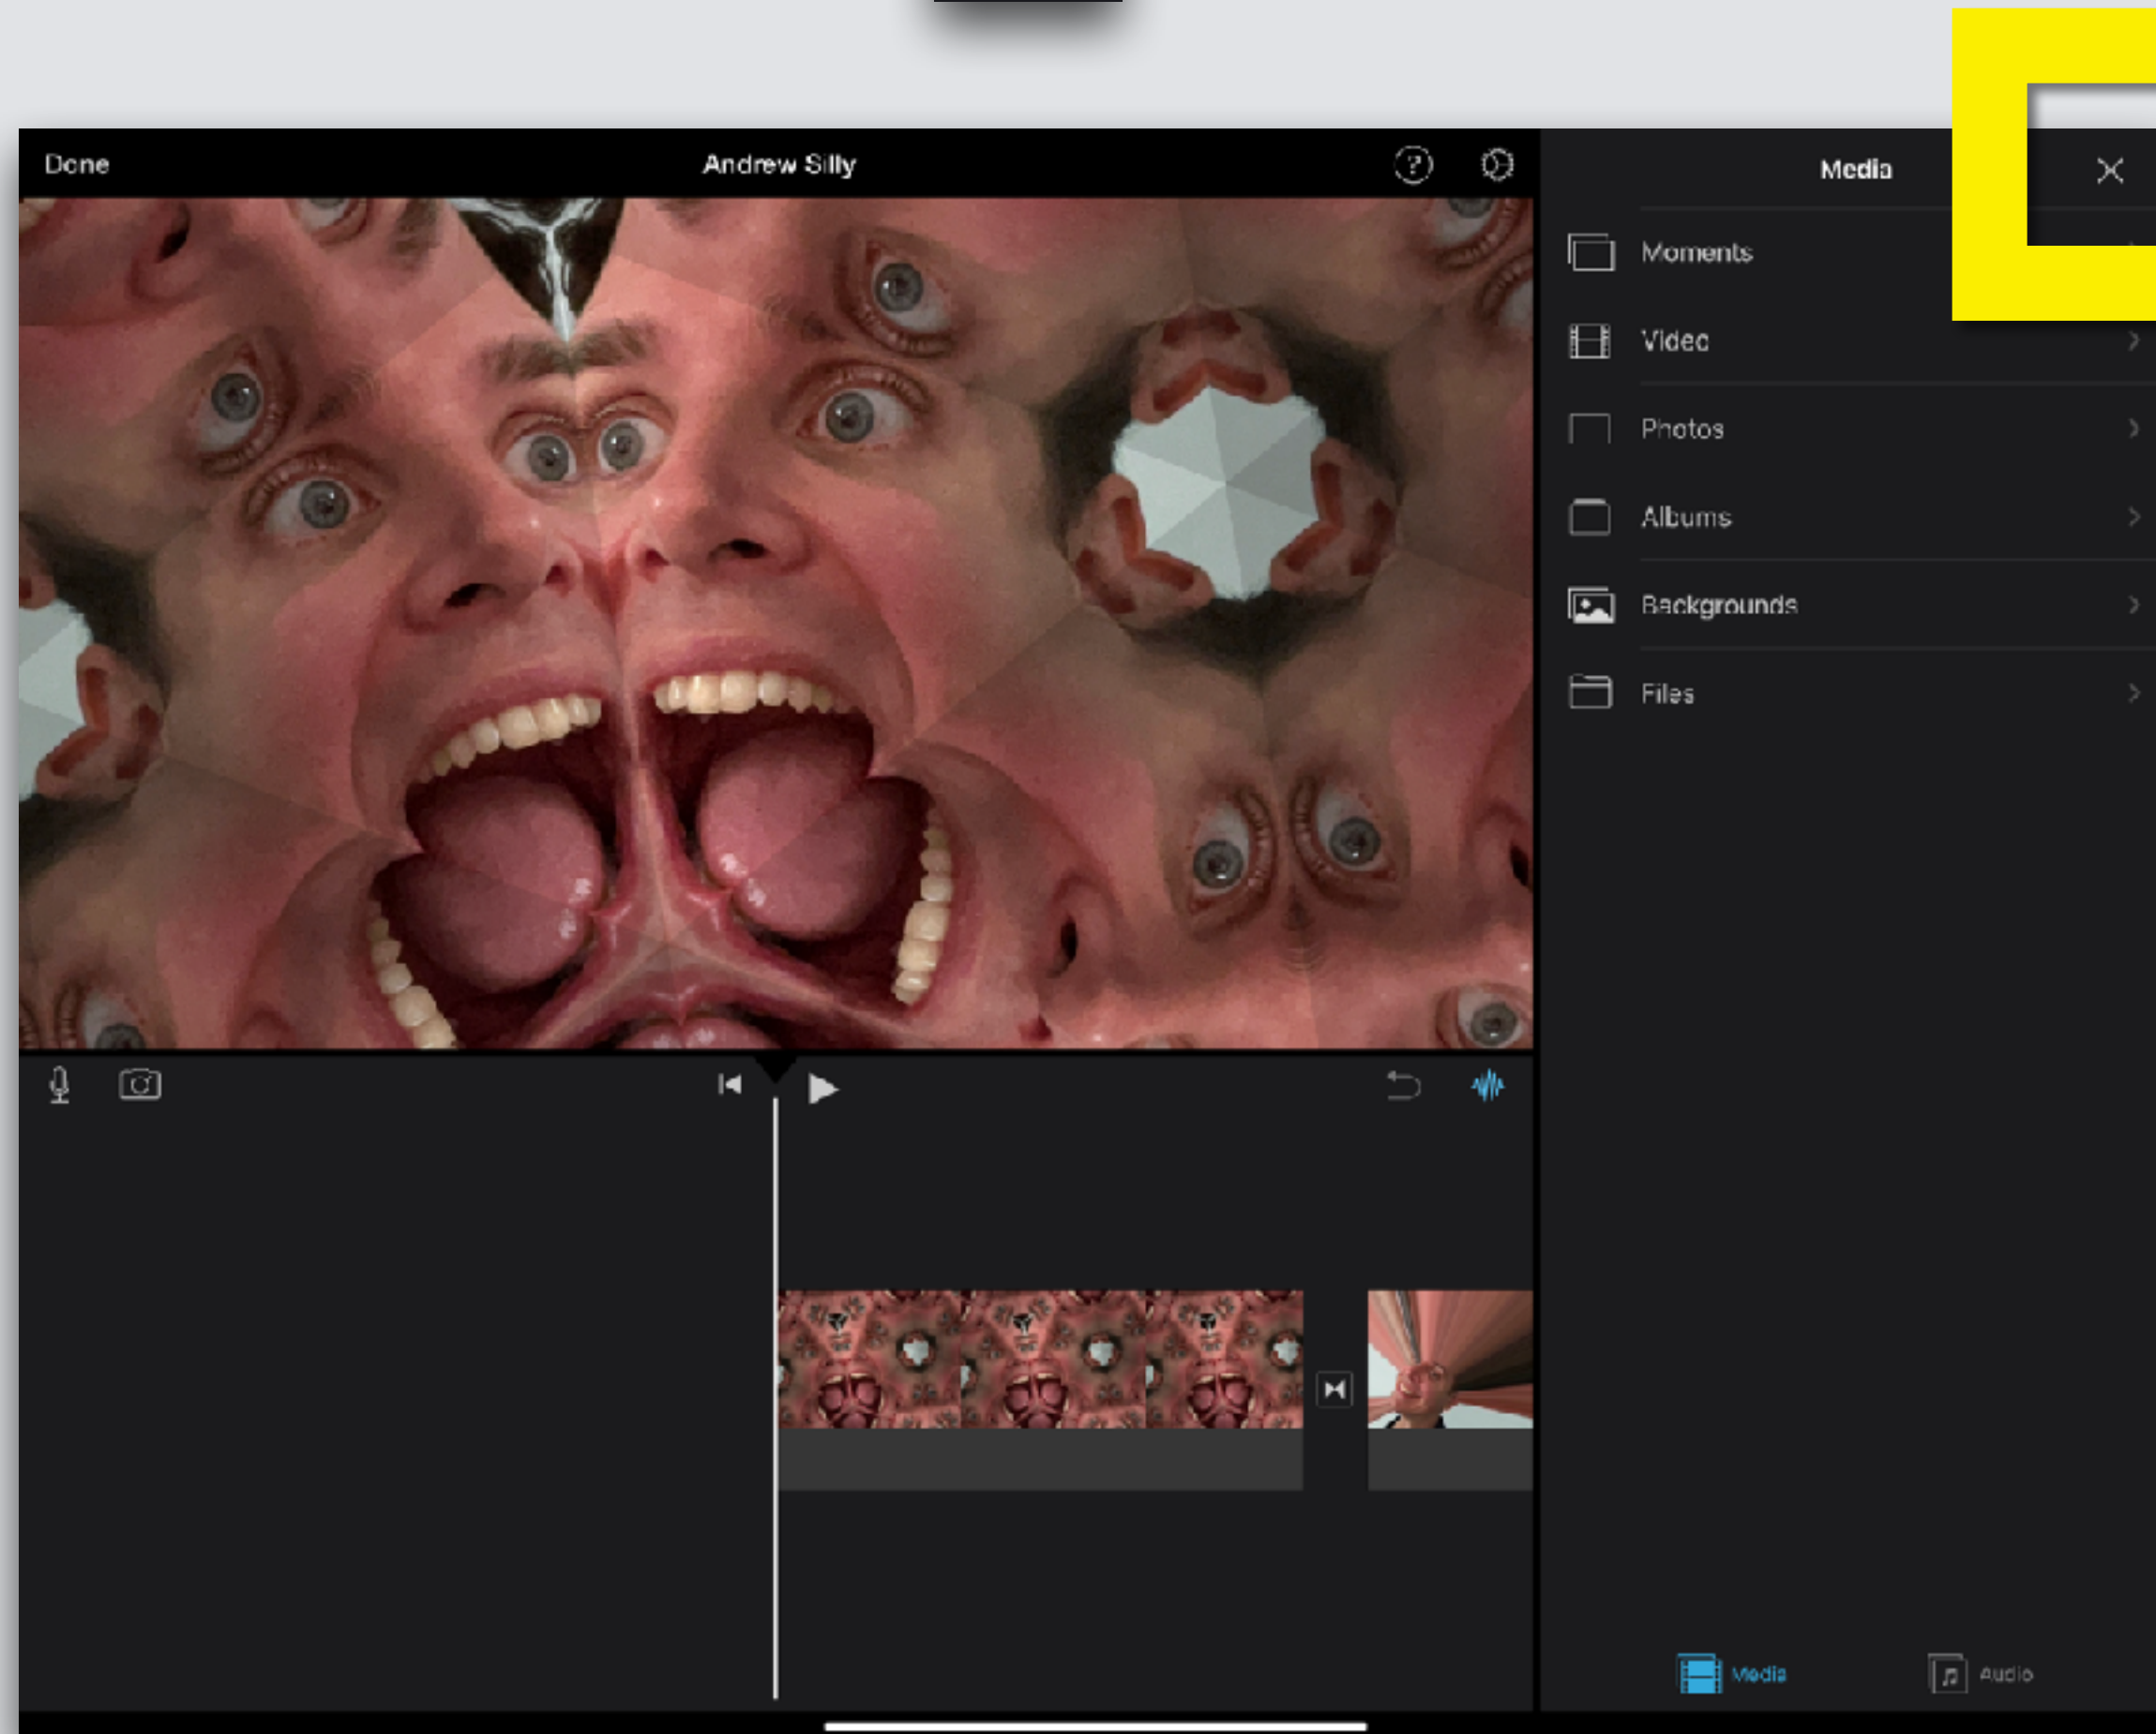

Playback Bar

Section 2 - Media, can be opened and closed

Touch  to close

Touch  to open

Two Folders:

Audio

Audio

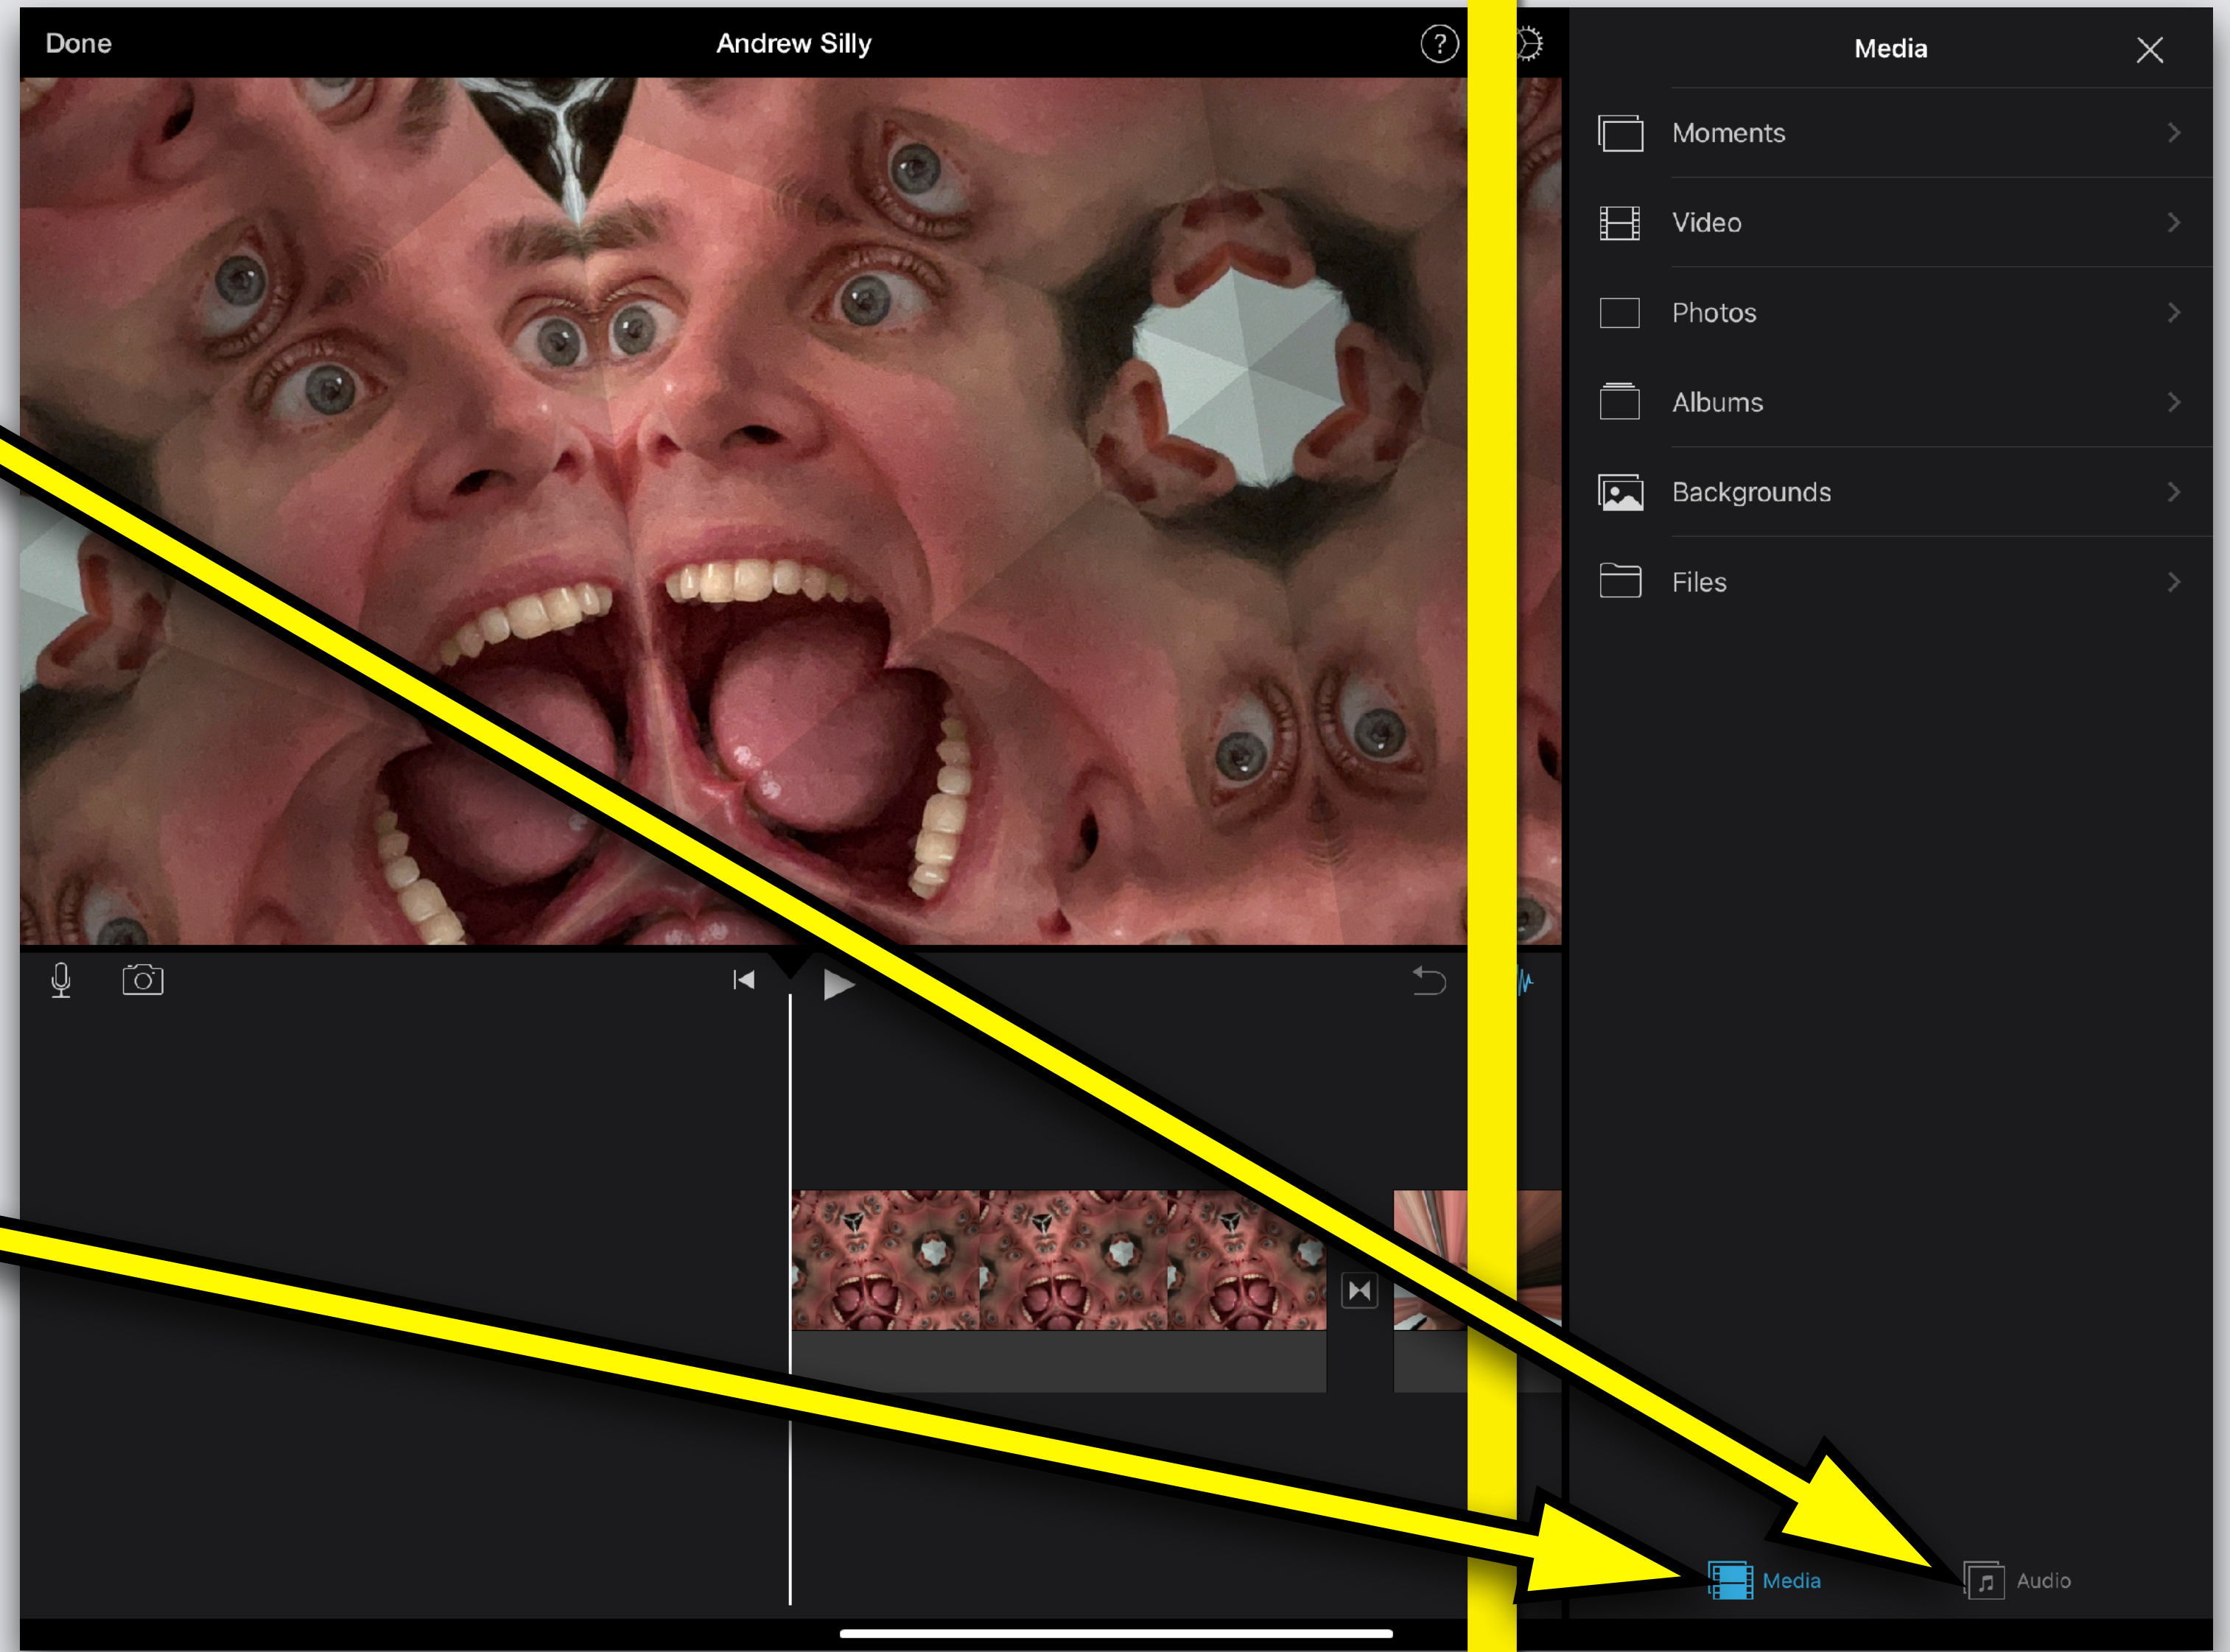

You can import sound effects & music stored on your iPad

Media

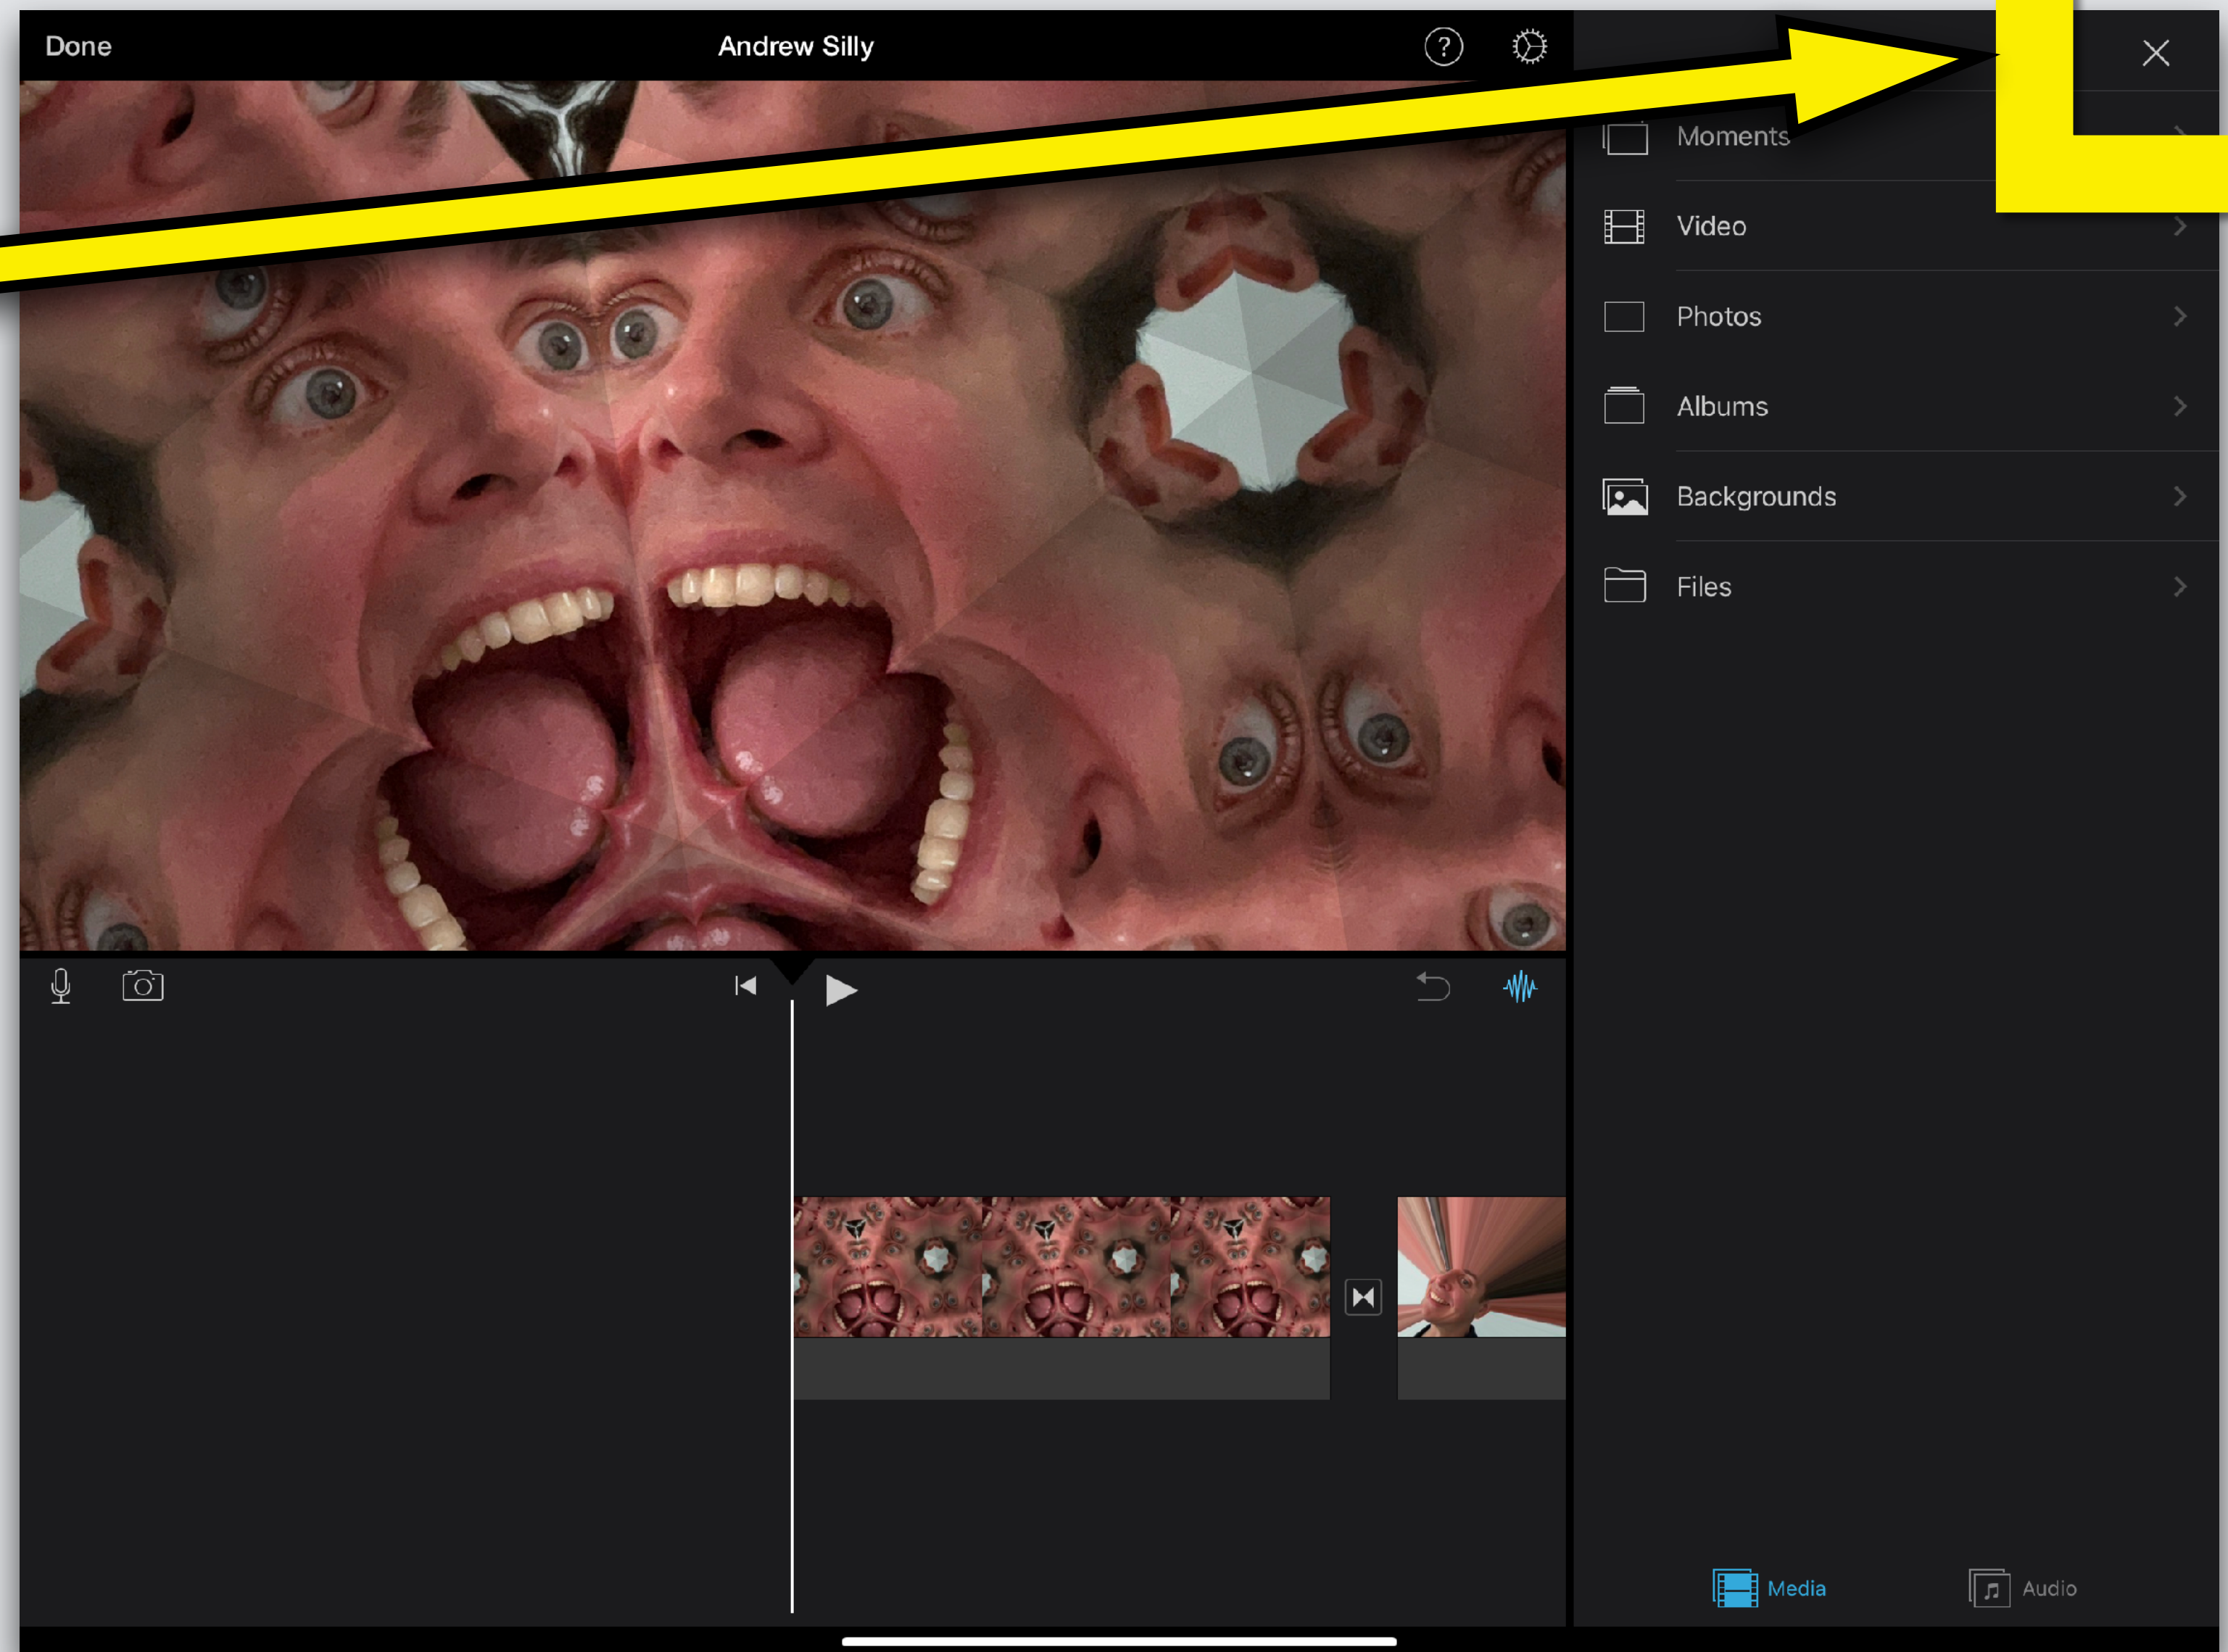

Media

You can import your photos & videos

**Touch “x”
to close
Media section
until we need
to use it again**

Section 3 - Worktable, to edit your movie

**To edit anything,
you have to tap it
in your Worktable**

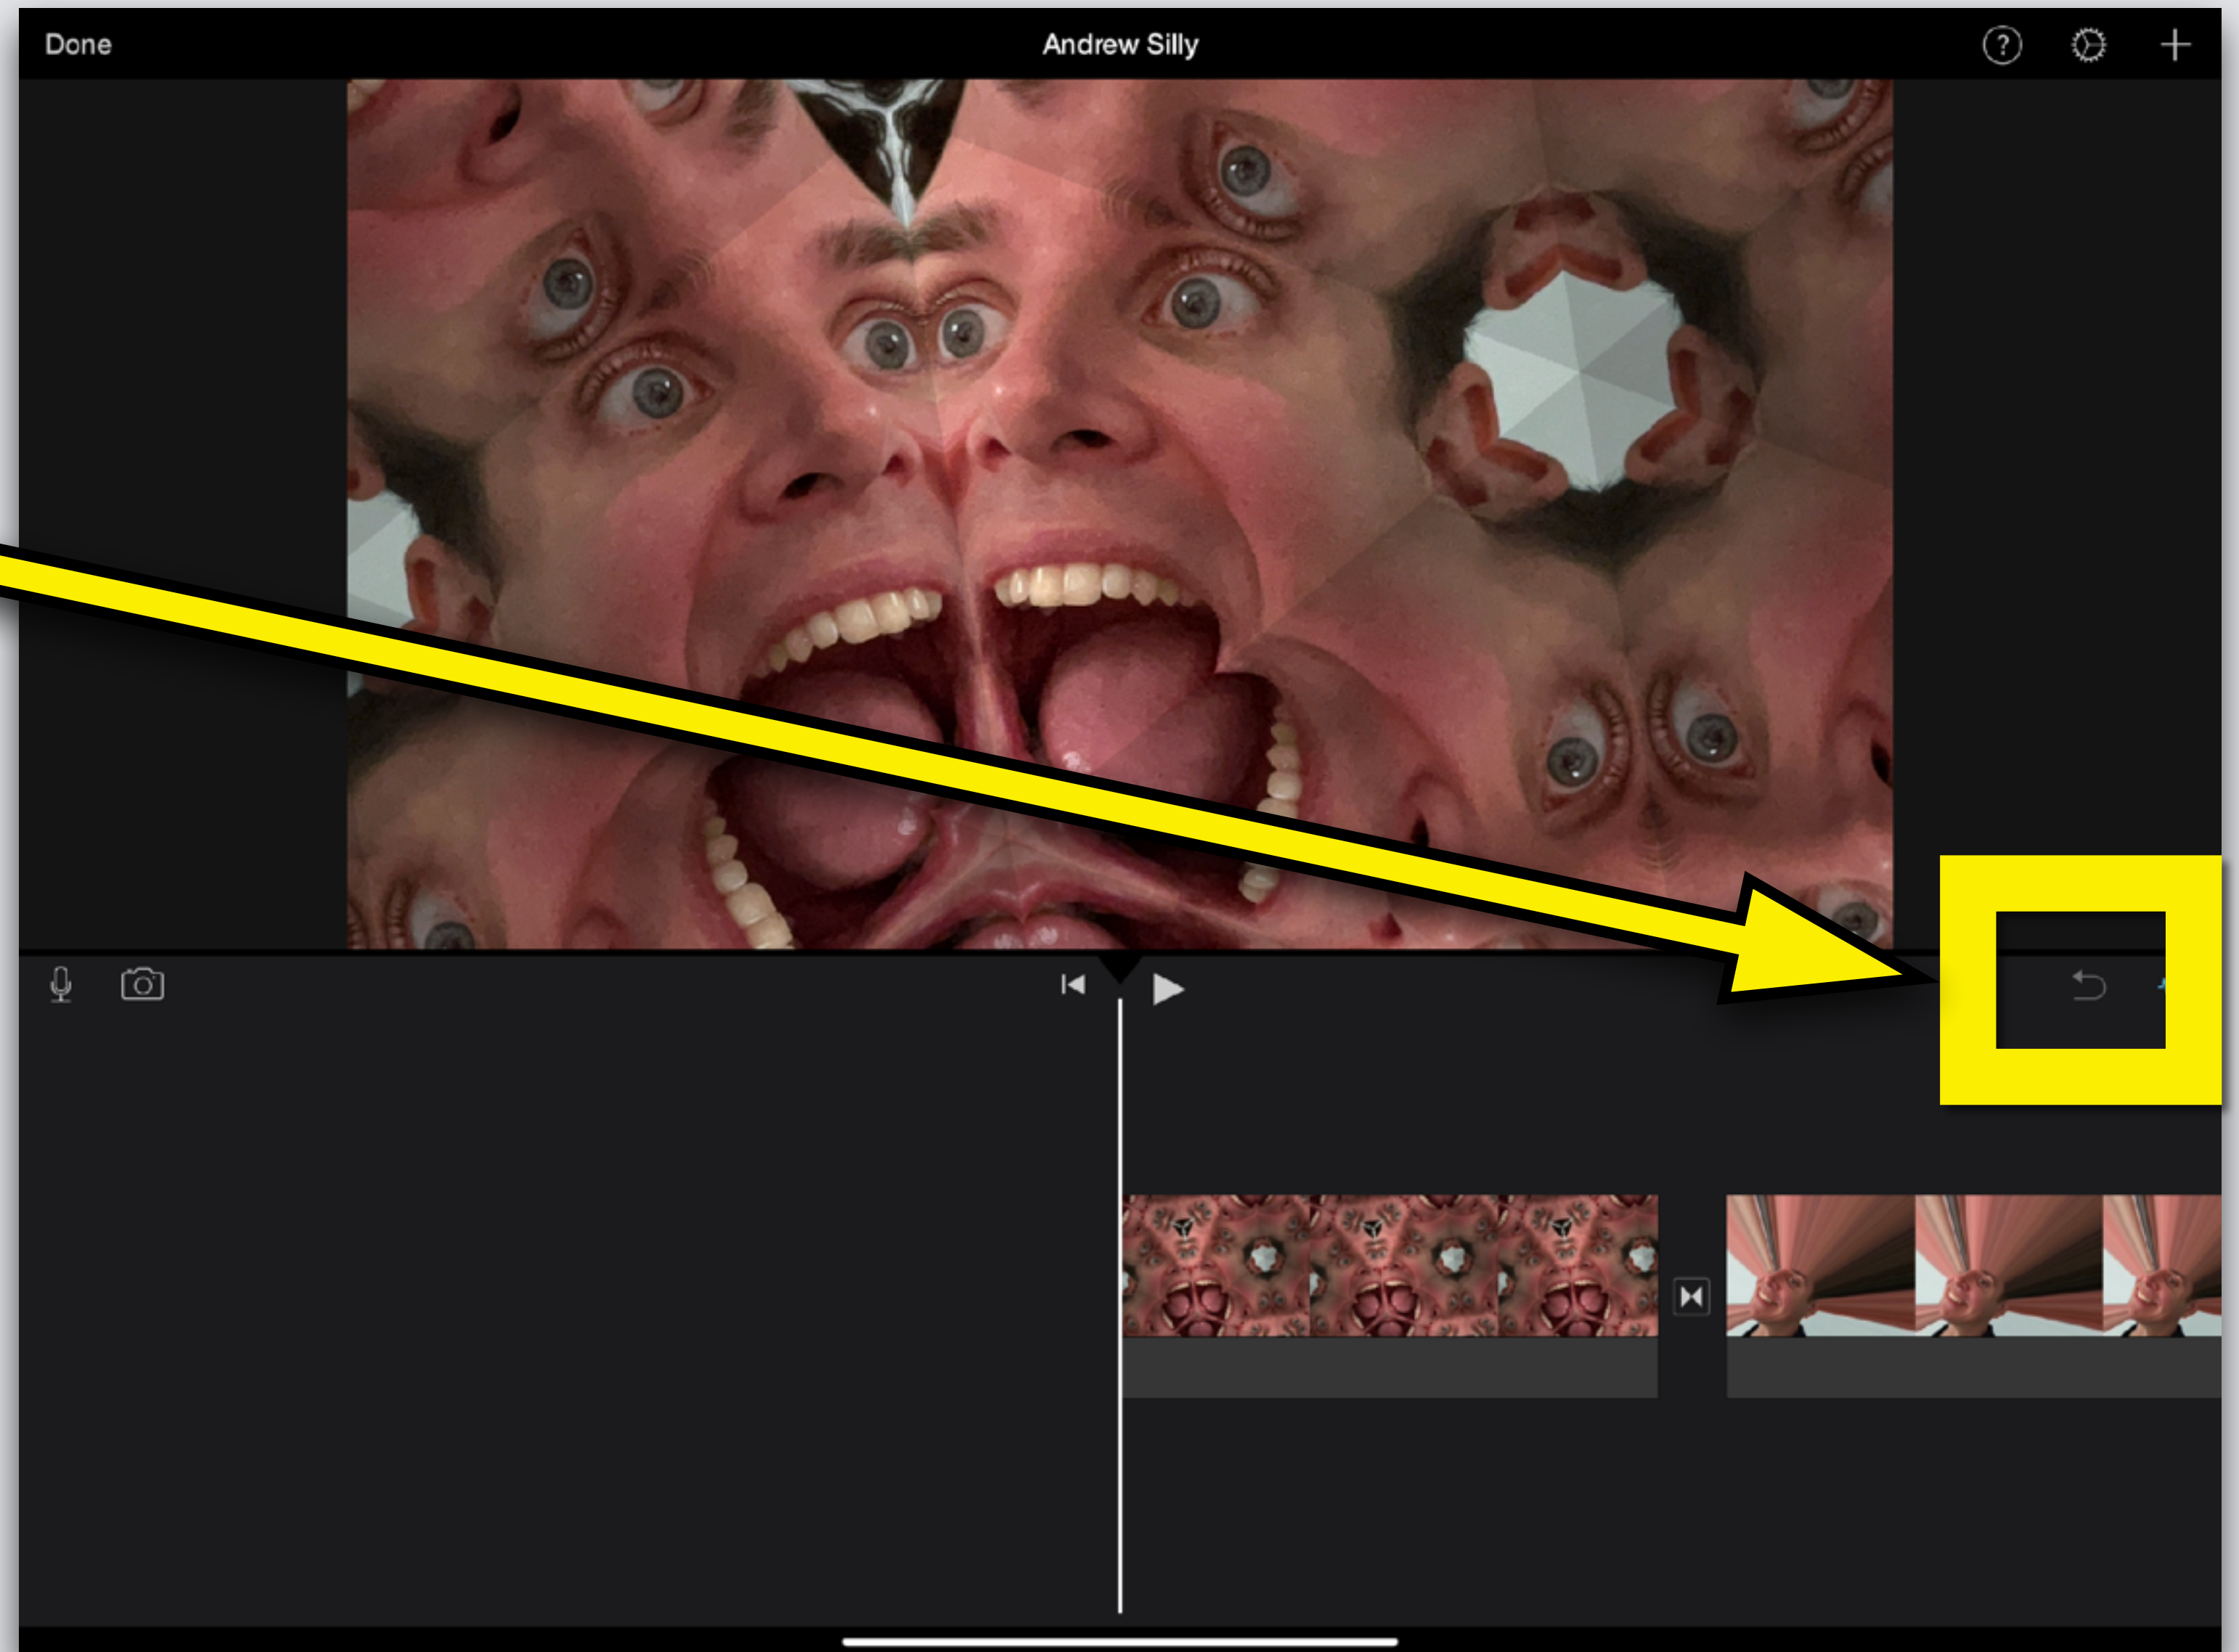

**Tap the clip you
want to change -
see the yellow
highlight? It is
ready to edit**

Undo Button

If you make a mistake, or don't like your edit, don't worry! To undo an edit, touch back button

Change Order

Touch and hold
your finger on
the photo

The photo
jumps, don't let
go, keep holding
